DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 29 December 2004 has been entered.
2. The rejections and/or objections made in the prior advisory action filed 24 August 2004 and the final office action filed 03 December 2003, which are not explicitly stated below, in original or modified form are withdrawn.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action filed 03 December 2003. Applicants' arguments in the Request for Continued Examination filed 29 December 2004 will be addressed to the extent that they pertain to the present grounds of rejection.

3. Claims 45-54, 57, 59 and 61 are pending and under consideration.

REJECTIONS **Withdrawn/Maintained** ***Claim Rejections - 35 USC § 102***

4. (Withdrawn) Rejection of claims 45, 47, 49, and 51 under 35 U.S.C. 102(b) as being anticipated by Hayman *et al.* is withdrawn as obviated by amendment as discussed per the telephone interview on 13 December 2004 between Applicants' Representatives and Examiners Chism and Tate. Claims 55, 56, 58 and 60 were incorporated into their base claims; thus, rendering the rejection moot.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. (Maintained) Claims 45-54, 57, 59 and 61 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 45-52 and 61-68 of U.S. Patent No. 5,981,468. Although the conflicting claims are not identical, they are not patentably distinct from each other because of those reasons as set forth in the previous office action filed 11 March 2003. The claims teach the instantly claimed methods of using a cyclic RGD peptide that is conformationally restricted in order to inhibit binding of a natural ligand to a

Art Unit: 1654

vitronectin receptor. The Applicants addressed the *Double Patenting* rejection insofar as the Applicants stated they would file a Terminal Disclaimer.

Conclusion

3. All pending claims are within the scope of the invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and were finally rejected on the grounds and art of record in the previous Office action prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

No claims are allowed.
